AGENCE NATIONALE DU SPORT

Dear participants and organizers of the World Sport Fishing Championship,

The City of Toul is very happy to welcome you for the highest level of competition in your sport! Your interest in our town confirms our attractiveness and our ability to host large-scale events. Toul is undeniably a city of water. Surrounded by the Moselle but also by the Ingressin canal, the town is in symbiosis with the rivers and basins.

During these few days, your loved ones and you will be able to discover our city and its territory. I hope you will find full satisfaction to satisfy your heritage and historical curiosity: the Vauban and Séré de Rivières ramparts offer unique views of the city, the Cathedral which has completed its 800th anniversary.

In terms of gastronomy and commerce, our town, which has the Action Cœur de Ville label, benefits from a wide range of shops and commercial shelves. Among them, the Quartier Gourmand which will allow you to discover the specialties of the region.

The Port de France, the round square, the possible walk along the ramparts are all spaces dedicated to strolling.

Wishing you a very nice competition, I would like to bring you all my best wishes for this world championship!

Long live fishing, long live sport!

ANTI-DOPING INFORMATION TUE REQUESTS

The athletes participating in the Championship, with the registration, implicitly accept all WADA anti-doping rules. Athlete whose illness or condition requires treatment with a prohibited substance or method must apply to CIPS for a Therapeutic Use Exemption (TUE) following the CIPS strict TUE application process.

He/she shall then use the application form, which can be downloaded from the ITA website:
https://ita.sport/uploads/2021/02/ITA_TUE_Form.pdf

The TUE request has to be sent to the following address: tue@ita.sport

Athletes must therefore consult the Prohibited List https://www.wada-ama.org/sites/default/files/2022-09/2023list_en_final_9_september_2022.pdf

If the TUE is granted, the athlete will then be permitted to use the medication during the period of validity of the TUE without committing an Anti-Doping Rules Violation (ADRV).

Regardless of whether a TUE has been granted or not, athletes should always declare on the doping control forms filled out during sample collection any medications and supplements taken within the seven days prior to sample collection, and any blood transfusions in the three months prior for blood samples.

If a TUE has already been granted by a NADO or by a RADO, the Athlete in question does not have to apply for any additional CIPS TUE, as CIPS recognizes all TUE granted by NADOs and RADOs.

COVID REGULATIONS

During any FIP Sed championship scheduled in calendar, the COVID-19 regulations in force in the event hosting Nation are applied.
